easyrights.eu

@ easyRightsEU

This project has received funding from the European Union's Horizon 2020 Research and Innovation programme under grant agreement No 870980

easyRights will develop a co-creation eco-system in which different actors belonging to the local governance system can cooperate in increasing the quantity and quality of public (welfare) services available to Immigrants.

The specific aims are to improve the current personalization and contextualization levels, empower the prospective beneficiaries of existing services in getting better access and fruition opportunities, and to engage Quadruple Helix stakeholders in joint, purposeful co-creation efforts, facilitated by the use of hackathons.

Pilots in:

Birmingham | Larissa | Palermo | Malaga
