

easyRights Solutions

@EASYRIGHTS_BOT

@[easyrights_bot](#) on Telegram, guides migrants to access public services, supporting them in understanding the terms and demands of some important administrative procedures.

Make sure you have Telegram app, from [Google Play](#) on Android or [App Store](#) on iPhone, installed on your phone.

Use the [easyRights Agent](#) or scan the QR code to obtain the info you need. Through the Agent, you can also access an app for learning the language and an online platform for practicing your pronunciation.

Capeesh, an app to learn the language aimed at supporting you in your activities and administrative procedures with the public administrations. It's a gamified digital training app designed for you to learn vocabulary specifically hand picked for moving through bureaucratic processes!

You will learn the words and terms you will need, and practice using them in context. You will also put yourself to the test with role playing exercises.

 **Capeesh**

In order to get started with the app, you will first need to download it from your device's store (Google Play on Android or App Store on iPhone) and register through the @easyRights_bot on Telegram.

CALST, an online platform that will help you learn to pronounce a new language correctly. Pronunciation is very important when you communicate with others and will make your conversations go more smoothly!

Go to <https://testcalst.hf.ntnu.no> to start the pronunciation exercises. Then choose:

- the instruction language
- your native language (if it is not in the list, choose "Other")
- the target language that you want to learn (Italian is under development and is not available as a choice yet)

Then you can go ahead. If asked, say you want to log in as a guest.
